LADIES AND GENTLEMEN—

Two years ago I was not known in Blairmore. This spring I have sold more made-to-measure suits than any merchant in the place, which is sufficient proof that my customers are satisfied. I believe in satisfying and have always found that if you can produce the goods the customers will pay the price.

A party of Stoney Mountain Indians passed through the Pass Monday enroute to Kootenay plains. Fanned: Dingman, strike 1; Monarch, strike 2; Black Diamond, strike 3; Lundbreck to bat; Mud Lake on deck.

Enquiry Begins At Hillcrest

The enquiry commission appointed by the provincial government to determine as far as possible the cause and effect of the recent Hillcrest disaster, opened in the Masonic Hall at Hillcrest on Thursday before His Honor Judge Carpenter, of Calgary.

W. M. Campbell, crown prosecutor, of Macleod, represents the Alberta government.

Colin Macleod, of Macleod, represents the Hillcrest Collieries.

John R. Palmer, of Lethbridge, is representing the miners' Union, assisted by Norman Fraser, ex-provincial inspector of mines, who will give expert evidence.

There are also present: G. H. Hudson, of the department of mines, Ottawa; John T. Sterling, provincial mine inspector, of Edmonton; A. J. Carter, secretary of District 18, U.M.W. of A.; James Gordon, local secretary; Mr. Graham, vice-president of District 18, and J. H. Mackie, of Montreal, president of the Hillcrest Coal Co.

The number of witnesses to give evidence has not yet been determined, nor the duration of the enquiry.

Hosmer Mines Are Closed Forever

Calgary, June 29.—Twelve hundred miners have been thrown out of work and the town of Hosmer, not far from Fernie, B.C., is about to be abandoned by its population, owing to the fact that the coal mines at this point, owned and operated by the Canadian Pacific Railway, have been shut down and closed forever. The work of dismantling the machinery is well under way. Merchants and property owners in the town are almost paralyzed because their land is worthless once the mines have been closed for good—coasting being the only industry that supports the town. Rumors to the effect that the mines would be shut down had been prevalent for some time, but the citizens of the town had been living in hopes that the reports were unfounded. However, the climax came yesterday when the work of dismantling the machinery of the mines commenced, and many miners who were not burdened with families immediately left for other points.

The Hosmer mines have been a big disappointment from the start and the development work has been going on at a heavy loss in hopes that something would materialize. However the seams instead of widening and the conditions bettering, the opposite was found to be the fact on investigation by the mine officers in charge.

Finally it was decided to close up altogether as the mining could only be done at a great loss. Whereupon twelve hundred men have been thrown out of employment and the business of many merchants in the city turned to failures through the summary closing of the mines.

The abandoning of Hosmer will make the second deserted town in that district, the town of Morrissey being the first town to be abandoned owing to the failure of the mines to pay. It is known that millions of dollars were spent in trying to re-locate coal at Morrissey and it is understood almost as much was lost at the Hosmer mines by the Canadian Pacific Railway company.

FOR SALE—On July 8th. All pure-bred registered Clydesdales and a few milk cows. W. T. Eddy, Lundbreck.

Conservatives Victorious In Ontario Elections

After one of the bitterest contests in the history of Ontario politics, the herculean effort on the part of the Liberal opposition to greatly reduce the Conservative majority in the legislature, or even get into power, failed this week. What made the contest so heated was the issue which was the slogan of the Liberals, "Abolish the bar." By insistence on the fact that the prohibition of the liquor traffic in Ontario was the supreme issue in the campaign, the parties were actually aligned as for or against the prohibition of the retail trade in liquor in the province (only federal legislation can prohibit the manufacture of liquor).

As a result of the voting, which was very heavy, most especially in the rural constituencies, the Liberal opposition gained thirteen seats in the new legislature, the Conservatives gained nine seats, and the Independents two. The new house will be composed thus of 83 Conservatives, 20 Liberals and two Independents.

Sir James Whitney, the former premier of the province, and the leader of the government party, lost his majority in Dundas, reduced by nearly 500. Hon. Dr. Bluenne, former minister of public works, was the only member of the former cabinet to be defeated. A three-cornered contest in Windsor resulted in his elimination and the election of Rev. J. C. Talmie, a Liberal, who is the Presbyterian minister of the town.

N. W. Rowell, leader of the Liberals, had a narrow escape from defeat in his riding, North Oxford, as he was elected by only 98 majority.

Appeal is Dismissed

The appeal in the case of *Lloyd vs. the Western Canada Collieries* has been dismissed by the appellate division of the supreme court. This was an action tried before his lordship Mr. Justice Scott, and the plaintiff awarded \$500 for damages sustained in a coal mine. The verdict did not suit the plaintiff, and he entered an appeal, which was dismissed. A. H. Clark, K. C., appeared as counsel for L. H. Putnam, who represented Macleod & Gray, of Macleod.

Mother Given Children But Not Alimony

Only part of the appeal was allowed by the appellate division of the supreme court, in the case of *Lloyd vs. Lloyd*. This was an action tried before his lordship Mr. Justice Scott, in which the plaintiff asked alimony from her husband and the custody of their infant children. His lordship dismissed the action, and upon appeal the mother has been allowed the custody of the children, but was not granted any alimony. The parties in the action are residents of Calgary.

R. McLellan, structural engineer, of Vancouver, is at present at Lundbreck, looking after the setting up of drilling machinery on certain valuable oil claims just north of that town. Mr. McLellan is a man of considerable experience in the business, and is very optimistic about the possibilities of the Lundbreck fields.

The license of the Coleman Liquor Co. was recommended, subject to immediate transfer.

Postmaster-General to Increase Postage Rates On Newspapers

Ottawa, Ont., June 26.—It is announced that in order to meet the cost of the increased subsidy to railways for the carrying of mails the post office department had decided to increase the postage on newspapers and periodicals. The present charge is one quarter of a cent per copy. It is proposed in the future to charge one cent per copy for papers delivered by letter carriers. Where there is no letter carrier system the charge will be one quarter of a cent per copy. A memorandum issued to the publishers under the authority of Hon. L. E. Pelletier, postmaster-general, states: "The press association has stated that there can be no disagreement as regards Canada having the lowest postage rate in the world, and that there can be no room for difference of opinion as regards the great growth in the amount of newspapers carried by post. The association has admitted that the rate of postage on newspapers should be increased."

The postmaster-general was desirous of reaching an agreement with the publishers and thought good could be accomplished if there was no doubt about the power to do so being vested in him. He was of the opinion that this power was already vested in the postmaster-general but to remove any doubt in regard to this and to make it clear that there would be no question about it, he introduced a bill to this end at the recent session of parliament. This bill passed the house of commons but was rejected by the senate. As a result of this action on the part of the senate there is nothing now to do but to enforce the law as it stands. The cent rate will prevail as heretofore on papers not delivered by letter carriers, but where the letter-carrier delivery is in operation a separate charge of not more than one cent a copy will be made for the delivery of newspapers by carriers. This is under section 71 of the post office act which provides that no amount not exceeding one cent shall be paid for the delivery of each newspaper by carrier.

As regards the 1-cent rate the law is that this rate shall be for each pound weight or any fraction of a pound weight; that is, 1-cent must be paid for each copy. The law does not establish a bulk rate of postage and this question of 1-cent for each copy must be met. The whole question of the conveyance of newspapers by post will now have to receive immediate consideration.

Vancouver Chinaman Given Life Sentence

Vancouver, June 30.—Declaring that he thought Jack Kong, the Chinese servant who killed Mrs. Chas. Millard, and dismembered and burned her body, was guilty of murder instead of the lesser crime of manslaughter which the jury had decided was the crime, Justice Gregory today emphasized his feeling by sentencing the 17-year-old criminal to spend the rest of his life in the penitentiary. Usually a "life" sentence means 21 years, but Kong under the sentence today, must spend all his years within prison walls. His lordship declared he was unable to see one redeeming feature, for he regarded the crime as one of peculiar cunning and ferocity.

Rod and Gun for July

Rod and Gun for July, published by W. J. Taylor, Limited, Woodstock, Ont., is out with a very striking cover design, an Indian shooter in full regalia, to the ordinary reader suggestive of a vanished race, to the trap-shooter a reminder of the annual "Canadian Indians' Tournament" at Niagara-on-the-Lake. Within the magazine is contained an account of the recent Grand International Tournament at St. Thomas, Ont. For the sportsman, tourist and lover of the out-of-doors, there is an interesting bill of fare which includes: A Game Trip from Lake Tomes to Lake Abitibi, an article on Newfoundland, the sportsman's paradise; the story of "An Off Week" on the outskirts of Jasper Park, Alta.; Reminiscences of Fishing in Rideau Lakes; two good stories, Canadian Camp Life and Capt. Atlas Uncle Zeb White; Goin' Fishin'; The Value of the Birds, a plea for an international treaty of protection; Skunks and how to take them; and a host of other material of the kind that readers of out-door literature enjoy.

The license of the Frank hotel has been recommended for another six weeks.

Sound in a Fog. It has often been noted that on wet and foggy days sounds are heard at a greater distance than on clear, fine days. It is the reason for this. He noticed that the distance at which the sounds of foghorns, whistles and shots could be heard varied from day to day from two to twelve miles. The cause of this difference is found in the degree of homogeneity of the air. On a foggy or misty day the air may be perfectly homogeneous; this permits sound to travel a great distance. In clear weather the air may be composed of vertical layers of differing consistency, and the sound waves are reflected from the surfaces of the layers. Probably they are also reflected in the passing through the several layers. Currents of warm ascending air form in one place and currents of cold descending air form in others. Thus the atmosphere may be very transparent and very opaque acoustically. —New York World.

Speaking From Experience. "Blanche," said the watchful aunt to her niece, "don't you think that Fred spends too much money upon you?" "Do you think so, aunt?" "Indeed, I do, Blanche. I've been noting, and I think he's really extravagant. You ought to be more careful in how you spend your money. You will need a good deal when you begin house-keeping, and it is far better for him to put in the bank the money he would be spending on motor trips and luncheons and tickets to this thing and that than to be squandering it. Think over the matter of your car, dear, and you will see it as I do."

"Oh, I've thought about it already, dear aunt. I'd take your advice if I were absolutely certain that I was to be married, but I've not decided before, aunt, and I don't intend to advise a young man about to economize for his mother's gift." —London Telegraph.

A Smoke Puzzle. "One day on approaching our factory," writes an American engineer in Cuba, "I noticed a great cloud of smoke, only dark, rolling out from the chimneys and blotting out the surrounding landscape. I went to the boiler room and gave the firemen a good dressing down for allowing so much smoke to escape, telling them it was throwing money away and that if they could not fire better I would have to discharge them. "I thought no more of it till the next morning, when, on entering the engine room, I found the chief mechanic just as I had been. He told me that the chief fireman, a negro, had come to him with tears in his eyes and had said: 'I have been thinking that I shall let the smoke go out the chimney; if I do, we will discharge you. Now, if the smoke cannot go out of the chimney, where can we put it?' —Power.

When Warships Were Cheaper. Warship expenditure of the present time would have horrified the Emperor William I. Andrew D. White, for many years American minister in Berlin, records that in an interview with the old emperor in 1881 he asked me some questions about the Elbe, in which I was about to travel to New York. I told him how beautifully it was equipped, but he said the best of the larger vessels of the North German Lloyd. He answered: Yes; what is now doing in the way of shipbuilding is wonderful. This morning I received a letter from my son, the crown prince, who is at Osborne and has just visited a great English man-of-war. It is wonderful, but it cost £1,000,000 sterling (\$5,000,000). At this he raised his voice and, throwing up both hands, said very earnestly, We can stand it, we can't stand it." —Chicago News.

Memory. If it should be asked what possession I most valued I would say some beautiful memory. Memory is possession. It is the only thing on earth that is absolutely ours, which no one can take from us. We can produce and enjoy it in a crowd of uncooperative people as easily as if we were alone. No noise can drown its voice; no distance can dim its clearness. Strength, hope, beauty, everything else, may pass. Memory will stay. —Selected.

Hardened Lead. Metallic sodium hardens lead with out changing its color. Two per cent of sodium will harden lead so that it will ring when struck; a larger amount causes it to become brittle. The lead sodium alloy is sometimes used as a bearing metal. —London Express.

Just Got It Out. "Why in the name of goodness," exclaimed a man to an acquaintance, "do you keep taking out your watch? Go, to catch a train?" "Well, no," answered the other. "To prove to the train that I can't see my watch for a long time."

Domestic Economy. When a woman wants to economize she likes to cut out of what the family eats, and when a man proposes economy he wants to take it out of what his wife wears. —Glasgow News.

Horse Dentists. Horse dentists do a lucrative business in New Zealand by travelling from district to district in the country and examining teeth of horses and treating them if necessary.

The Other Side. "I tell you, being married is mighty expensive." "True, but it's absolutely economy compared with being unmarried."

APPLES CAN BE GROWN

Dominion Horticulturist Says Prairies Will Produce Variety

I believe that there are great openings on the prairies for market gardening in supplying the cities and small towns with vegetables. The difficulty is that those who are interested in that line have largely gone to other prairie lands, but it need not be just as great in this province for fresh vegetables, which can be grown just as well here as anywhere else in the Dominion.

This is the opinion of W. T. Macoun, Dominion horticulturist, who has been visiting the western experimental farms, and is staying at the Royal Alexandra. Mr. Macoun took quite an optimistic view of conditions as to horticulture throughout the west. When asked about fruit-growing on the prairies, and the oft-expressed view that free fruit cannot be grown on the prairies, Mr. Macoun said that the fact that crab apple could be grown so successfully was proof to him that apples could be grown. If they were properly cultivated. In his tour of the west, Mr. Macoun found that the fruit was gone through the winter better than usual. Prospects were getting better all the time, and before long they would have a fair variety of apples from the prairie provinces. He thought that the trouble was that there had been so few interested in fruit trees. The people often did not seem to have a knowledge of the fact that the Dominion horticulturist mentioned the fact that A. B. Stevenson, of Morden, raised large quantities of apples, which showed that they could be grown.

Mr. Macoun has visited the farms at Indian Head, Scott, Rosthern, Brandon, Assiniboia, and Sidney, B.C., and the present trip he held through Manitoba and Southern Alberta were the best practice sections in promise for fruit trees. At the Lettbridge experimental farm he had quite a good crop of apples last year, and seemed likely to have one again this year. Mr. Macoun has been 26 years at the Ottawa experimental farm, and at the farm has 30 acres of fruit devoted to horticulture, the work being subdivided into sections given to experiments in vegetables, fruit, ornamental plants and plant breeding. —Free Press.

Mr. Churchill on Air Risks. The Right Hon. Winston Churchill, first lord of the admiralty, was the guest of the Royal Aero club at its annual dinner. He held a few nights ago a dinner for the club at the Grosvenor hotel, London. In the course of his speech, Mr. Churchill said: "The risk of flying is very greatly exaggerated. I have been at the admiralty many years and have been lost in the submarine, but in the air I have never been in an element of risk in flying it is not undue or excessive."

We are talking as hopefully as ever of flying the Atlantic as a means of flying four years ago of flying the Atlantic. I am now a pilot. I think an attempt to fly the Atlantic is in present circumstances premature, but an attempt to fly the Atlantic appears to be attached to any such enterprise; but the progress has been enormous, and we cannot doubt that in the near future we shall see heavy aeroplanes and great ships making voyages as matter of course experience which nowadays we should look upon as most extraordinary accomplishment.

This new art and science of flying is one in which Great Britain ought to be able to show herself not only supreme in numbers, but supreme in quality. It affords a fairer field for the emulation of men than many of the games which make up our international contests. For centuries people have talked and dreamed about flying. And now flying is a commonplace event. That is a great fact. It enlarges the scope of human activity. It must in the future exert a potent influence upon the habits of men, and the military destinies of states."

Price a Consideration. "I wonder why some people are so foolish." "Probably because it doesn't cost them much to be so."

HAPPY NOW. Family of Twelve Drink Postum

"I certainly have been a blessing in our home," writes a young lady in regard to Postum. "I am one of a family of twelve, who before using Postum, would make a healthy person uncomfortable for their complaining of headache, dizziness, sour stomach, etc. from drinking coffee." (Tea is just as injurious because it contains the same drug, caffeine.)

"For years mother suffered from palpitation of the heart, chest headache and bad stomach, and at times would be taken violently ill. About a year ago she quit coffee and began Postum. "My brother was troubled with headache and dizziness all the time. He drank coffee. All those troubles of my mother and brother have disappeared since Postum has taken the place of coffee. "A sister was ill nearly all her life with headache and heart trouble, and about all she cared for was coffee and tea. The doctors told her she must leave those alone as medicines did her no permanent good. "She thought nothing would take the place of coffee until we introduced her to Postum. Now her troubles are all gone and she is a happy little woman, enjoying life as people should."

Name given by the Canadian Postum Co., Windsor, Ont. Postum now comes in two forms: Regular Postum—must be well boiled. It is in 25c packages. Instant Postum—is a soluble powder. A teaspoonful dissolves quickly in a cup of hot water. Add cream and sugar, makes a delicious beverage instantly. 50c and 60c tins. The cost per cup of both kinds is about the same. "There's a Reason" for Postum. It's the reason sold by Grocers.

WOUNDS AND SORES

Apply Zambuk to all wounds and sores and you will be surprised how quickly it stops the smarting and brings ease. It covers the wound with a layer of protective latex, kills all germs already in the wound, and prevents others entering. It sticks to the bottom, keeps there and is a wonderfully short time.

Why Alpine Climbers go to Pieces M. Valot and M. Bayeux have presented to the Academie des Sciences an interesting communication concerning the relations of muscular altitude. They make use of a squirrel confined in a rotary cage and were able to determine that the animal at the sea level made 6,000 turns of the wheel a day. After this fact had been established by repeated observations the animal was taken in his cage to the summit of Mont Blanc, which altitude it made only 900 turns a day. When brought down to the plain it made 5,000.

This experiment clearly shows that the muscular work of the climber is not solely due to the exertions of climbing, even though they take a considerable part in it. As a matter of fact they say that Paris correspondent of the "Lancet" in commenting on the facts, the person or animal transported without fatigue to the summit finds himself in a medium in which the diminution of oxygen is sufficient to diminish muscular energy.

Similar observations have been made on the men, horses and mules, which work in the cordillera of the Andes. Unless worms be expelled from the system, no child can be healthy. Mother Graves' Worm Expeller is the best medicine extant to destroy worms.

A big raw-boned youth in the Carolina mountains went to see a young woman of his acquaintance. In his bashfulness he sat in silence; but, as it were his only means of expression, he twirled his thumbs one about the other in never ending circles. At length the girl inquired: "Do you always do that when you go to see a woman?"

"No," drawled the youth; "sometimes I" (twirling his thumbs in the reverse direction) "do it this way."

Files Cured in 6 to 14 Days Druggists refund money if PAZO OINTMENT fails to cure itching, Bitet, Blisters, Eruptions, Itch, etc. First application gives relief, 50c.

"How does Mrs. Fusser like her new machine?" "She is perfectly satisfied."

"I'd like to meet her right away." "I never saw a perfectly satisfied woman."

Power of Mammion Crawford—is he really so rich? Crabshaw—There's no doubt of it. When he sued his wife for divorce the papers in the case were withheld from public scrutiny, and there was a suicide in the family the coroner's office decided it was an accident.

Live Stock for Farmers

The desire of the farmers to engage in mixed farming is illustrated by the fact that the Saskatchewan department of agriculture has recently received applications for \$15,000 worth of cattle, sheep, and swine, to be supplied, partially for cash and partly on credit.

Mrs. Young-Nelle

Now Cook—I don't know, ma'am, but I can tango nicely!

Write—"To be frank with you, if you were to die I should certainly marry again."

Husband—"I've no objection. I'm not going to worry about the troubles of a fellow whom I shall never know."

Try Murine Eye Remedy

If you have Red, Weak, Watery Eyes, or Granulated Eyelids, or Stinging Eyes, or Painful Discharge, or Itching Eyes, or Swollen Eyelids, or Sore Eyes, or Bleeding Eyes, or Any Eye Trouble, try Murine Eye Remedy.

Asphaltum Area Around Athabasca

An oil expert who has just returned from Athabasca Landing from an exploration trip through the Athabasca district recently opened by the C.N.R. Edmonton-Calgary line, reports that there is an asphaltum area of at least 175 miles square and containing from 10,000,000 to 200,000,000 tons of the material so useful for paving material. The deposits are from 10 to 300 feet in depth. An analysis made at British, American and Canadian laboratories show the following constituents: Heavy asphaltum, 84 per cent.; bitumen, 10 per cent.; heavy asphaltum, 5 per cent. A value of \$1 per ton is placed upon the deposits. It is expected that the territory thus discovered will be again thoroughly inspected, and if feasible the west of Canada will possess a remarkable source of asphaltum which will greatly enrich the country.

Powder manufacturers are constantly on the alert for methods and means to minimize factory explosions. So far as practicable, they maintain a large number of small factories scattered over the country. Each of these plants is built with an eye to possible explosions, the foundation and walls are of concrete, and the substantial, with the roof and the remaining wall are of the lightest character. When the accidental occurs the roof and wall falls readily give way before the charge, the rest of the building stands unharmed. Semi-automatic machinery is also used wherever possible, designed so that it may be operated largely from points outside the structure in which it is housed.

The Policeman's Friend

Likewise the friend of every man and woman who is kept constantly on their feet, and suffers from rheumatism and corns. The one painless remedy is Putnam's Corn and Wart Extractor. It acts in twenty-four hours, and never fails to cure the corn, wart and blisters. Satisfaction guaranteed with a 25c bottle of Putnam's Painless Corn and Wart Extractor.

Curiosity Justified

She—"Have you any special reason for wanting to know my age?" He—"I merely wish to know at what age woman is really the most fascinating."

Rope filled horseshoes, which pick up small stones and sand and present rough surfaces, have been patented in Germany for helping horses on slippery streets.

Burton—Mean man, isn't he?
Robinson—Mean? He's capable of going into a barber's shop for a shave and then getting his hair cut just to keep other people waiting.

BEST MONEY HE HAS EVER SPENT
WAS WHAT C. HANSEN PAID FOR DODD'S KIDNEY PILLS

Had Been Ailing for Six or Seven Years When He Took a Neighbor's Advice and Found a Complete Cure. **Moza, Man—(Special)—Mr. Cornelius Hansen**, well known and highly respected here, is telling his friends his simple but complete cure from a protracted illness. The facts in brief are: He had Kidney Disease; took Dodd's Kidney Pills; he cured him. But let Mr. Hansen tell his own story.

"I was troubled with my Kidneys for six or seven years," he says. "My back was so sore I couldn't get out of bed in the morning. I tried medicines, but they did me no good. Then I met a neighbor and he advised me to try Dodd's Kidney Pills. He said he had used them in his family for a long time and they were a great medicine."

"I bought six boxes of them, and by the time I had taken three of them I was feeling much better. Now I am quite well, and I think the best money ever spent my life was what I paid for Dodd's Kidney Pills."

Dodd's Kidney Pills are no cure-all. They simply cure sick Kidneys. But they do all that is claimed for them.

Although many plants close their leaves and flowers at the approach of rain, lettuce flowers open their widest at such times.

Keep Minard's Liniment in the house.

Professional Bander
Parson A.—It's hard to get people into the church.
Dr. B.—But it's easier to do that than it is to get them into heaven.

Parson A.—True. We ministers can only point the way to heaven. When it comes to getting people there we are obliged to fall back on the doctors.—Washington Herald.

\$100 REWARD, \$100
The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in the last 20 years. That is Catarrh. Catarrh is the only cause of Prostate Trouble, the medical fraternity, Catarrh being a constitutional disease. Catarrh is a blood and mucous surface disease. It is the only cause of Prostate Trouble. It is the only cause of Prostate Trouble. It is the only cause of Prostate Trouble.

C.P.R. Floral Department

A quarter of a century ago, saw the floral department of the C.P.R. Commencing on a small scale it has rapidly developed until now it is one of the largest in the world.

Was Relieved in an Hour, and Cured
A lame back? Quite unnecessary. All you have to do is to rub on Nervine. It is simply a wonder for the relief of the back. The seeds this year are being possibly cured by a new medicine called Nervine. Write Mrs. Arthur Kolar, of Lower Chelsea, N.S. "I caught cold and was so prostrated with pain I could not bend over. We always have Nervine at home, and I had the painful region rubbed thoroughly with this grand liniment. At once the pain departed. The lameness was rapidly reduced and in half an hour I was able to be about my household. I was rubbed again just before retiring, and awoke as usual in the morning without a sign of my back trouble."

There is no sort of muscular pain that Nervine won't cure quickly. Thousands swear by it for rheumatism, neuritis, sciatica and lumbago. It strikes to the core of the pain—right through muscle, tissue and nerve—it penetrates where no oily, greasy liniment can go and invariably cures quickly. If you have an ache or a pain anywhere—use Nervine—it will cure you. Family size bottle, 75c. 1/2 dozen, \$3.50; 1/2 dozen, \$5.00.

It is an old saying that corporations have no soul. But the C.P.R. has. It is an exception to the general rule, and has made itself a name for what it has accomplished in beautifying its line.

Story of a Novelist
Mrs. Henry Wood, author of "East Lynne," the "best seller" of the year, was forty and a wife and mother before she turned her hand to novel writing, and her most famous book seems to have been written to soothe the weariness of a severe illness. Much of it indeed was composed in bed, and the writer scarcely hoped to live to complete it. After running an obscure course in a money magazine the story was refused by several publishers and accepted only with misgivings by Richard Bentley. It fell flat until some one reviewed it enthusiastically in the London Times, and then the printers worked night and day to cope with the demand. Within a very short time "East Lynne" was translated into almost every language in Europe, and as book and play its popularity has known no eclipse.—Argonaut.

Revenge
Judge—"It seems to me I have seen you face before."
Prisoner—"You have; I taught your daughter singing."
Judge—"Ten years!"

"Willie, you have been fighting."
"Yes."
"I thought I told you to be kind and peaceful."
"Yes, but the boy didn't understand that I was being kind and peaceful. I had to do something to show him I wasn't a mollycoddle and make him willing to co-operate in my lofty posture."—Washington Star.

With so thorough a preparation at hand as Miller's Worm Powders the mother who allows her children to suffer from the ravages of worms, unwise and culpably careless. A child subjected to the attacks of worms is always unhealthy and will be stunted in its growth. It is a mercurial act to rid it of these destructive parasites, especially when it can be done without difficulty.

"I hope," said one wife to another, "that you never mix your husband."
"Only when he is beating the rugs."

"What is it?"
"The bill," she said.—New York Sun.

Both corners are difficult to eradicate, but Holloway's Corn Cure will draw them out painlessly.

What a Woman Can Do
She can do more in a minute than a man can do in an hour, and do it better.

Six of them can talk at once, and get along first rate; and no two men can do that.

She can safely stick fifty pins in her dress while a man is getting one through his thumb nail.

She can appreciate a kiss from her husband seventy-five years after the marriage ceremony is performed.

She can come to a conclusion without the slightest trouble of reasoning on it; and no same man can do that.

She can dance all night in a pair of shoes two sizes too small for her, and enjoy every minute of the time.

She can walk half the night with a squalling baby in her arms without once expressing the desire of murdering the infant.

She is as cool as a cucumber in half a dozen tight dresses and skirts while a man will sweat and fume and growl in one loose shirt.

She can talk as sweet as peaches and cream to the woman she hates, while two men would be punching each other's heads before they had exchanged ten words.

She cannot wait the use of a woman can do anything or everything and do it well.—Pearson's.

Hot Dogs of War
Said an ex-captain visiting to Senator Ollie James of Kentucky: "I can't do me a good turn at the war department if you want to, senator?"

"What can I do for you?" asked James.
"Go down there and get them to give me the frankfurter privilege for them battles the Mexicans are fighting across the El Paso."—Saturday Evening Post.

An eminent Scotch astronomer once explained in a lecture that a certain star looked no bigger than a penny but a hundred miles away. After the discourse one of the audience said to him:

"I know you for a Scotsman, for no one but a Scotsman would trouble about a penny but a hundred miles off."

Lame Back Strengthened, Stiffness Taken Right Out

Was Relieved in an Hour, and Cured
A lame back? Quite unnecessary. All you have to do is to rub on Nervine. It is simply a wonder for the relief of the back. The seeds this year are being possibly cured by a new medicine called Nervine. Write Mrs. Arthur Kolar, of Lower Chelsea, N.S. "I caught cold and was so prostrated with pain I could not bend over. Bless the Baby

Bless this little heart, this white soul that has won the kiss of heaven for our earth.
He loves the light of the sun, he loves the smile of his mother's face. He has no learned to despise the dust and to hanker after gold. Clasp him to your heart and bless him.

He has come into this land of a hundred crosses.
I know not how he chose you from the crowd, "mam," to your door and to grasp your hand and to call his life.

He will follow you, laughing and talking and not a doubt in his heart. Keep him true, make him straight and bless him.—From "The Crescent Moon," by Rabindranath Tagore.

"Which side of the question is your husband on?"
"I don't know, the wrong side, whichever the 'it' is."

Helpless From Rheumatism
Gin Pills Give Prompt Relief by Cutting the Kidney

Mr. Samuel Longmore, of Montreal, says: "Just a word of praise for GIN PILLS. About fifteen months ago I could not walk across my room, suffering severely with Rheumatism. I took GIN PILLS and became quite well. Two months ago I had rheumatism in the Pains with Neuralgia. I resorted to GIN PILLS again for one week and became quite well."

60c a box & for \$2.50. Sample free if you write National Drug & Chemical Co. of Canada, Limited, Toronto.

"I am representing a course in conversation."
"Well, what of it?"
"Couldn't I sell you a scholarship for your wife?"
"The man came to in an hour."

No Quick Asset
A rain to summer daily is worth a million, so they say. But no one can collect it Right away.

Ask for Minard's and take no other.
Gold filled teeth have been found in the jaw of a skeleton exhumed from the ruins of ancient Pompeii.

To Cure a Cold in One Day
Take LAXATIVE BROMO QUININE Tablets. Druggists refund money if it fails to cure. E. W. GROVE'S signature is on each.

"Wasn't there something about a promise to love, honor and obey me in that marriage ceremony?" asked Mr. Meekton.

"My goodness, Leonidas? You are like some of those politicians who never quit talking about a party platform."—Washington Star.

Some women can smile in the face of adversity just as if they meant it.

It was like Water to die of Anaemia by two doctors

A Letter of Unusual Interest Describes this Remarkable Cure

You will learn by reading this letter how medical doctors knock proprietary medicines and try to keep people from using them and learning of their value.

This letter also shows how medicines of proven merit often cure the most complicated cases after doctors had given up hope. In this case two doctors said Mr. Hyndman could not get better, and, in fact, he daily grew weaker so long as he followed their treatment. This is a remarkable victory for Dr. Chase's Medicines and you will find the details of the case interesting.

Mr. T. Hyndman, Farmer, Rupert, Que., writes:—"I had been gradually failing in health for two years and tried many remedies, among others I used Dr. Chase's Kidney-Liver Pills and found them doing me good. Some neighbors told me the Doctors said they were dangerous so I quit their use and went to the doctor. Under his treatment I got so weak I was unable to raise my head from the pillow, and he told me that I had Anemia of the blood and could never be better again, so I sent for another doctor and he told me the same. I could not take their medicine and was continually vomiting, so I gave them up and said 'kill or cure I will again try Dr. Chase's medicines.' I used altogether fourteen boxes of Dr. Chase's Nerve Food and six boxes Dr. Chase's Kidney-Liver Pills, and now I can work from six o'clock in the morning until seven at night and I don't poke at it either. Any man that works a farm knows what kind of a job it is. I honestly believe that I owe my life to Dr. Chase's Nerve Food and Pills, and I praise them everywhere I go. Many of the people here use them to keep the system in good condition and prevent disease."

Dr. Chase's Nerve Food has no rival as a means of enriching the blood and building up the system. 50c a box, 6 for \$2.50, all dealers or Edmondson, Bates & Co., Limited, Toronto. Write for booklet.

"How to Dwarf a Town"

Horace Greely, the greatest editor the country ever had, is said to have given the following formula:

"If you want to keep a town from thriving, don't put up any more buildings than you can conveniently occupy yourself. If you should accidentally have an empty building, and anyone should want to rent it, ask three times the value of it. Demand a sky high price for every spot of ground that God has given you stewardship over. Turn a cold shoulder to every mechanic and business man seeking a home with you. Look at every new comer with a scorn; run down the work of every new workman. Go abroad for wares, rather than deal with those who seek to do business in your midst. Fail to advertise or in any other way to support your home paper, so that people abroad may know whether any business is going on in that town or not. Wrap yourself up within yourself with a coat of imperious selfishness.

"There is no more effectual way to retard the growth of a town than actions like those enumerated, and there are people in every town who are pursuing the same course every day of their lives, and to whom the above remarks are respectfully offered for their consideration."—Exchange.

Less Speed Desired

The owners of ocean liners are as contradictory and paradoxical in their instructions to their captains as was the careful mother in the well known rhyme.

"Mother may I go in to swim,
Yes my darling daughter;
Hang your clothes on a hickory limb
But don't go near the water."

"The captains are told in effect to go slow enough to avoid all possibilities of collision with another ship or an iceberg, but at the same time to 'drive her like the d—', so as to make a faster passage than any boat of usual line. Under such conflicting orders, captains and officers have become shattered nervous wrecks, and when an emergency arises they are not able to cope with it as men in their position should be.

The marine disasters of the last few months are having their effects on some of the more cautious of the world's travellers. 'The most popular boat to travel by last year was of the swiftest line; now people are enquiring for the steamers of the line that have had fewest accidents. A quick passage across the Atlantic is now desirable, but many people from now on will not object to half a day longer on the journey, if they thereby get an additional assurance that the chance of loss of life has been reduced to a minimum. The speedy and daring captain, who is never far from being a neurotic wreck, will not attract in future as much as will the cool and cautious commander, who will place the safety of his passengers above speed records.—St. John's Trade Review.

Crossed Too Late To See Their "Dad"

"For men must work and women must weep." Little Mrs. James Bradshaw, speeding as fast as the train could carry her to Hillcrest, Alberta, learned the saddest part of the old saying, for her husband was among those who were entombed in the Hillcrest mine. At the scene of the disaster two strong young sons and a daughter waited to break the sad news to the little mother and to make up for her in every way possible for the death of him who was among the first to be carried out when the work of rescue was begun.

With light hearts Mrs. Bradshaw and her children said goodbye to the home land. The steamer had fair weather and the trip was "great fun." When Quebec was reached joyful hearts grew fear-
some, the first news of the explosion of the Hillcrest mine being received

there. The voyage from Quebec to Montreal was one of cruel suspense. Here, James Cowley, a friend from home, met the family at the Montreal landing and gently told them that the father was entombed and perhaps lost. They should bear themselves bravely, however, for he still might be saved. The straw was eagerly grasped at and thus buoyed up, the mother and her three little wide-eyed boys of seven, nine and 11 years, left Windsor station a few hours later on the Canadian Pacific train for western Canada.

They did not know then that the name of James Bradshaw headed the list of workers whose lifeless bodies had been taken out of the mine and identified.

Fit Alberta Teachers to Teach Domestic Science

Alberta teachers are now in a position to equip themselves for teaching Domestic Science in the schools of the province. The agricultural high schools are putting on special courses for teachers. The following circular letter sent out by W. J. Stephens, principal of the Claresholm school of agriculture, tells all about it.

The Provincial School of Agriculture, at Claresholm, wishes to announce that a course in Household Science will be given to holding qualified teachers' certificates for the Province of Alberta, commencing October 27, of this year. This course will enable teachers to teach household science in any school in the province. Those holding second grade certificates and having completed the normal course, by taking two winters in the school of agriculture, will be household science specialists. Those having completed the 11th grade in the high school may take this course of household science and will be entitled to teach this work in any of the schools, after they have completed the normal course.

In addition to the household science specialists' course, the school will offer a course for young ladies who do not intend to teach household science, but who are desirous of obtaining a training that will better equip them for their duties in their homes. To take this course, no special educational qualifications are necessary.

The course of study is a thoroughly practical one, and is given under the direction of the Minister of Agriculture, the Hon. Duncan Marshall, and the Board of Agricultural Directors. There are no fees in connection with this course, and the only expense girls will be put to, will be for books, and for room and board, which can be obtained in most respectable families in the town of Claresholm.

Anyone desiring to attend the school this fall should communicate at once with the principal. Calendars and application forms will be mailed upon request.

Victims of The Hillcrest Disaster

The following is clipped from the Westville Free Lance:
William Neath was a young man of 25 years of age, son of Mr. and Mrs. Samuel Neath. He leaves a widow (nee Lizzie Wallace) and one child. He was a man of clean life and splendid character, and a general favorite in Westville. He was a keen interest in athletics, and was a member of Forest of Dean Lodge, Sons of England, Westville.

Rod Wallace, second youngest son of Mr. and Mrs. John Wallace, was twenty years of age. He only went West a few months ago, and his death at a time when life is sweetest is extremely sad. He was a fine young man, and prior to leaving Westville was a member of St. Philip's Choir. Mr. and Mrs. Wallace feel the death of their son and their son-in-law very keenly.

Mr. Emery had been in the West for about a year. He was in poor health when he left Westville, and thought the change of air would prove beneficial. He was 31 years of age, unmarried, and stood high in public esteem in his home town. He was a son of Mr. and Mrs. John Emery, Westville.

Mr. Bingham was a native of English-ton, C.B., but made his home in Westville for several years before he went West. He was 40 years of age, and leaves four children, two by his first wife and

SYNOPSIS OF COAL MINING REGULATIONS

1. The mining rights of the Dominion in Manitoba, Saskatchewan and Alberta, the Yukon Territory, the Northwest Territory and in a portion of the Province of British Columbia may be leased for a term not exceeding an annual period of 21 years. Not more than \$200 per acre will be leased to one applicant.

2. Applications for a lease must be made by the applicant in person to the Agent or Sub-Agent for the District in which the land is situated.

3. In surveyed territory the land must be described by sections, or legal subdivisions of sections, and in unsurveyed territory the land applied for shall be staked out by the applicant himself.

4. Each application must be accompanied by a fee of \$5 which will be refunded if the rights applied for are not available, but not otherwise. Every claim shall be sold by the merchantable output of the mine at the rate of five cents per ton.

5. The person operating the mine shall furnish the Agent with a return, according to the full quantity of merchantable coal mined and the royalty thereon. If the coal mine is not being operated, such return shall be furnished at least once a year.

6. No person shall be permitted to sit on the surface of the mine, or to use the same for any purpose other than the mining of coal.

7. For full information a question should be sent to the Secretary of the Department of the Interior, Ottawa or to any Agent or Sub-Agent of the Dominion Lands.

Bellevue Happenings

Rev. F. T. Cook was visiting at Coleman on Monday.

Mrs. Hugh Hutton visited Burmis on Saturday, returning at night.

Mr. and Mrs. Thomas Bradley, of Frank, were visiting in camp on Sunday.

Wallace Raynor is spending a holiday with his brother John at Medicine Hat.

John Hutton visited his daughter, Mrs. George Coupland, at Burmis on Sunday.

A. I. Blais is this week looking after his store here in the absence of Walter Scott.

Mr. Randall, the local tenorial artist, moved into his new residence on Tuesday.

Miss Scott, of the teaching staff, left Sunday on a visit to her home in Fredericton, N.B.

Miss Mary Simpson, of Frank, was visiting Mr. and Mrs. John Simpson on Saturday.

The shareholders of the Johnston Syndicate held a meeting in the Lyric theatre on Sunday.

The school closed on Friday for the summer holidays, and will reopen about July the 25th.

The infant daughter of Mr. and Mrs. Dobbie was buried at the Blairmore cemetery on Thursday.

Miss Bradley, of the teaching staff, has gone to spend the holidays at her home in Fredericton, N.B.

Rev. W. T. Young was in camp last week in connection with the memorial service held at the local church.

Mrs. Vance, of London, Ontario, is in the camp visiting her daughter, who is nurse at the Bellevue hospital.

"Jock" Thompson and son, who left here some months ago for Edmonton, returned to camp again this week.

J. H. Taylor is putting on a mammoth sale, commencing July the 4th and lasting till July 25th. See his large bills.

The two Byia girls, who had been attending school at Fincher Creek, returned home to spend the holidays with their parents.

Some of the local mine officials were at Frank last week attending the exams for certificate. Hope you are successful, boys.

Arthur Kelly, the principal of the local school, leaves this week for Lethbridge and Calgary, where he will spend his holidays.

Mrs. Holmes, of Vancouver, for some years a resident of Bellevue, is in the camp for a few days, the guest of Mr. and Mrs. Herman Varley.

Three of the local school children were at Blairmore last week attending the examinations, namely Joe Christ, Florrie Halloworth and Sinie Lechite. We wish them success.

It is rumored that a branch lodge of the Independent Order of Oddfellows is shortly to be instituted here. Such a movement should receive the hearty support and co-operation of our citizens.

Mr. Creighton, who has been connected with the bank here for some time, left for Fincher Creek, where he will be stationed in future. Some of Bellevue's young ladies are looking lonely already.

A very impressive memorial service was held in the Bellevue Methodist church on Sunday evening. Rev. Mr. Cook preached an able sermon. The Bellevue band was in attendance and played the Dead March and several other selections. Prior to the service the band assembled near the Bellevue hotel and rendered the Dead March in Saul on the way to the church.

The Rocky Mountain Cement Co. has secured sufficient contracts for cement to ensure the operation of the plant for the next ten months.

Frank Happenings

James Nichol spent Wednesday in Fernie.

The regular choir practice was held in the Methodist church on Thursday night.

A number of the Frank boys journeyed to Coleman with the Michel team to see the Coleman-Cool Creek game.

The Association of Stationary Engineers held their regular meeting on Thursday night at the Cosmopolitan hotel, Blairmore.

Mr. Skelding has the second half of the Union hotel on its foundation and the plasterers are busy with the interior. The hotel will soon be re-opened for business.

Janet Nichol, one of Frank's basket-ball stars, journeyed to Coleman on Wednesday to play for Blairmore against Coleman. Blairmore brought home the prize by a score of 12 to 9.

A number of Coal Creek folks came down from Coleman on Wednesday afternoon to take in the Frank-Michel game. Although the game was not very exciting, the visitors could plainly see that Frank is not to be trifled with.

A dance was given by the Bohemians in the old Union hall on Wednesday evening for the benefit of the widow and two children of Frank Frech, who was killed in the Hillcrest mine. After expenses were paid, a balance of \$6.25 remained to be forwarded to the family in Bohemia.

A memorial service was held in the Methodist church on Sunday night, when Rev. W. T. Young preached an interesting sermon. Special music and hymns were rendered by the choir. The quartette by Miss Simpson, Mrs. Dicken, Messrs. W. Simpson and Sam Paton was very appropriate.

A pleasant send-off was accorded Mr. Baker, the local school principal, on the occasion of his leaving for his summer holidays. The affair took place at the Methodist church on Tuesday evening, a large number of his friends being present. Mr. Baker will return to Frank in time for the re-opening of the school.

THE BEST MEDICINE IN THE WORLD

"My little girl had dysentery very bad. I thought she would die. Chamberlain's Colic, Cholera and Diarrhoea Remedy cured her, and I can truthfully say that I think it is the best medicine in the world," writes Mr. William Ovis, Clare, Mich. For sale by all dealers.

A football match will probably take place here on Saturday, July 10th, between Frank and Bellevue teams, in aid of the Hillcrest relief fund. Every one should attend this game and give whatever assistance they can to the worthy cause, which will be highly appreciated. Further announcement later.

Frank had Michel at home on Wednesday in the league engagement. The kick-off took place at 2:30 in the afternoon under the scorching sun. The game was not of a very interesting character, although there was considerable excitement at times. Frank seemed to be able to handle the visitors as they wished, and after scoring the second goal took things a little mild. Both Hutton and Gordon scored for Frank, the game ending 2-0.

A GOOD INVESTMENT

W. D. Magill, a well known merchant of Whitesound, Wis., bought a stock of Chamberlain's medicine so as to be able to supply them to his customers. After receiving them he was himself taken sick and says that one small bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy was worth more to him than the cost of his entire stock of these medicines. For sale by all dealers.

Bad Disease

A well known railroad president once took occasion to visit the small southern town to enjoy the excellent fishing near by. He carefully concealed his identity and was consequently snubbed by a "legging citizen" with whom he attempted to strike up a conversation on the banks of the stream. When leaving he secured the services of an aged black to carry his things from the hotel to the spot. There the departing visitor caught sight of the man who had given him the cold shoulder. "Poor Smith!" he said, smiling amiably. "Suffering from an aggravated attack of egotism." "But so?" said Uncle Silas in surprise, following his gaze. "He doesn't look much more than twenty years. Ah, natch, knowed afore dat he was allin'."—Argonaut.

Eleven miles southeast of London, in Kent, not many years ago were discovered the catacombs of the ancient druids, which are now much visited by sightseers and are lighted, for a part at least, by electric lights. Over fifty miles of chambers, cut in the chalk cliffs, have already been explored. The druids lived in these catacombs when attacked by their northern enemies, and here they buried many of their dead. The stone in which the human sacrifices were made is still to be seen, and also the well, from which water is drawn to this day.

Arrested Chauffeur—Yes, you honor, I did try to warn the man, but the horn didn't work.
Judge—Tha n why didn't you shout at the man?
Chauffeur—I did, your honor, but he didn't seem to hear me.
Judge—Why didn't you slap him rather than run him down?
Chauffeur—Well, now, you're got me on me, judge, I never thought of that.—Mother's Magazine.

W. H. U. 001

The Ruling Passion

It is not hard to keep from being fascinated if you are only superficially interested in it. In an article in the "Wide World Magazine," called "The Savage Teacher," tells the story of a German mountain climber who did not forget to be economical, even in the midst of deadly peril.

A party was crossing a glacier on the slope of the mountain when one of the travellers called to the others to stop and listen. Strange cries came from the ice beneath their feet.

"Someone has fallen into a crevasse!" exclaimed one of the party. "His groans seem to indicate that he is already beyond help."

"We must do what we can in any case," responded one of the guides, and he began a long and perilous descent into what proved to be the jaws of a concealed crevasse. At the bottom they found the poor gentleman who had fallen. He was, however, quite unharmed, sitting comfortably upon a bench of ice.

"We've come to save you," said one of the guides.

"You save me," answered the gentleman, quite tranquilly. "How do you know I want to be saved?"

"Because you called to us for aid," said one of the bewildered guides.

"Perhaps I did," replied the German, "perhaps I didn't. You came, anyhow. Now what'll you take to rescue me?"

And before he would allow the guides to hitch him to the rope and drag him to the surface, he compelled them to set down in writing the exact amount they would require for the performance of their life-saving duty. He was a business man, whatever anyone could say about him, and moreover, he knew the guides of Switzerland.

A Powerful Medicine.—The healing properties in six essential oils are concentrated in every drop of Dr. Thomas' Electric Oil, forming one of the most beneficial liniments ever offered to the use of man. Thousands can testify as to its power in allaying pain, and many thousands more can testify that they owe their health to it. Its wonderful power is not expressed by its cheapness.

Art Critics

When Orchardson's picture, "Hard Hit," was exhibited at the Academy the artist was strolling through the rooms one day when he saw, to his alarm, an excited little foreigner making toward him with threatening aspect and brandishing a stick as he came. "Ah, sir," he exclaimed, "I thought that by killing you I could paint a picture like that I would crush your skull this instant!"

David Murray, a Royal Academician was once painting an Picardy when his sketch of a car became excited. Being desirous of securing an "impression" for use later in a more ambitious attempt, the artist did one bit on a handkerchief tucked on a stretcher. Upon his return to London this piece of work was being inspected, with others, by a wealthy old lady, who expressed a desire to purchase Murray's sketch as valuable to tell her that it had been painted on his pocket handkerchief. "On your pocket handkerchief!" exclaimed the old lady. "Then I'm quite sure you've ruined it, Mr. Murray. The paint will never come off!"—London Spectator.

Minard's Liniment Co., Limited.
Dear Sirs—Your MINARD'S LINIMENT is our remedy for sore throat, colds and all ordinary ailments.

It never fails to relieve and cure promptly.
CHARLES WHOOTEN.
Port Mulgrave.

Aged
"Why, look here," said the merchant who was in need of a boy, "aren't you the same boy who was in here a week ago?"

"Yes, sir," said the applicant.
"I thought so. And didn't I tell you I then that I wanted an older boy?"

"Yes, sir. That's why I'm back. I'm older now."

Explained
His chum—How well bred your sister is. Her brother—Yes; you see, she spends most of her time away from the rest of the family.

Dr. Morse's Indian Root Pills
are made according to a formula in use nearly a century ago among the Indians, and learned from them by Dr. Morse. Though repeated attempts have been made, by physicians and chemists, it has been found impossible to improve the formula or the pills. Dr. Morse's Indian Root Pills are household remedies throughout the world for Constipation and all Kidney and Liver troubles. They cure promptly and effectively, and

Cleanse the System

Forbes-Robertson's Rival
Amateur Actor—How did you like my Hamlet last night?

Critic—Like it? My dear fellow, I can honestly say that in the opening scene of the fourth act you were as good as Forbes-Robertson.

Amateur Actor—But I didn't appear in that scene.
Critic—No; neither does Forbes-Robertson.

Anglo-Saxon Poies
First Sport (hooking magnificent view of the Alps)—Not bad, that.
Second Sport—Yes, it's all right, but you've got to have about it like a belly poet.—London Punch.

Population of the World
According to the Bureau of Universal Statistics, the population of the world in 1912 was slightly over 1,800,000,000, of which there were in Asia 523,000,000; in Europe 484,000,000; in Africa 188,000,000; in America 157,000,000; and in Oceania 57,000,000.

Dust Causes Asthma.—Even a little speck too small to see will lead to agonies which no words can describe. The walls of the breathing tubes contract and it seems as if the very life must pass. From this condition Dr. J. B. Jones' Asthma Remedy brings the user to perfect rest and health. It relieves the passages and normal breathing is firmly established again. Hundreds of testimonials received annually prove its effectiveness.

The U.S. Press on Panama Tolls
Out of 135 leading newspapers of the United States on the World's Exchange list, we find 107 supporting President Wilson and only twenty-eight opposing him. We believe that this cleavage of newspaper sentiment is fairly representative of the cleavage of popular sentiment. This sentiment shows that the east, the middle west, and the south are overwhelmingly in favor of granting subsidies by breaking treaties, and that the chief measure of support comes from the Pacific coast.—New York World.

BANISH PIMPLES AND ERUPTIONS
In the Spring Most People Need a Tonic Medicine.

One of the surest signs that the blood is out of order is the eruption, unsightly eruptions and eczema that come frequently with the change from winter to spring. These prove that the long indoor life of winter has had its effect upon the blood, and that a tonic medicine is needed to put it right. Indeed there are few people who do not need a tonic at this season. Bad blood does not merely show itself in disfiguring eruptions. To this same condition is attacks of Rheumatism and lumbago; the sharp stabbing pains of sciatica and neuralgia; poor appetite and a desire to avoid exertion. You cannot cure these troubles by the use of purgative medicines—you need a tonic and a tonic only, and among all medicines there is none can equal Dr. Williams' Pink Pills for their tonic, life-giving, nerve-restoring powers. Every dose of this medicine makes new rich blood which drives out impurities, stimulates every organ and brings a feeling of new health and energy to weak, tired, ailing men, women and children. If you are out of sorts give this medicine a trial and see how quickly it will restore the appetite, revive drooping spirits, and fill your veins with new, health-giving blood.

You can get these Pills from any medicine dealer or by mail at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

"Gent up-town telephones for an officer at once. Burglar in the house. A man up," said the captain, reflectively. "I've got four men censoring plays, two inspecting the growth of a society function, and two more supervising a tango tea. Tell him I can send him an officer in about two hours."

If you have been buying the 3 lb. dollar tin of any brand of tea you have surely wished for a finer-flavored, richer, stronger tea.

The Green Label tin of Red Rose Tea will meet your wishes exactly. Besides, it will prove a cheaper tea because it goes farther, making about 600 cups. And it only costs \$1.20 for the 3 lb. tin.

Red Rose Tea "is Good Tea"

In the 1 lb. package we would suggest your trying the 50c. quality of Red Rose. It's a stronger as well as a finer-flavored tea.

Red Rose Tea is never sold in bulk.

N.B.—Coffee users will find Red Rose Coffee as generously good as Red Rose Tea.

Lucky Choices

My husband is a most inveterate reader," exclaimed Mrs. Knox with a slight tone of ennui. "He reads until every morning, but last night I found him asleep with his nose in 'V.V.'s Eyes!'"

"Perhaps," commented her husband's bookish friend, "you should be thankful you did not find him with his nose in 'The Inside of the Cup!'"

The wild lettuce of the Northern United States has possibilities as a source of rubber.

Positive Proof

"Is Smith an intelligent, well-informed man?" "Usually so. As a juror he is always every morning, but last night I found him asleep with his nose in 'V.V.'s Eyes!'"

They were enjoying a motor ride and had just entered a country road. "May I kiss your hand?" he asked, a little confusedly.

She removed her veil. "No," she replied, "I have my gloves on."

How's Business?

Advertising, backed up by the right spirit, the right goods and the right service, can rescue a sinking business and will make a prosperous business more masterful in its own community.

When John Wanamaker, the Prince of Merchants, began business, he resolved to force matters. He was not content to wait to be found out—he DETERMINED TO BE found out. In short, he advertised. He threw on his business, small as it was, the light of publicity, and the public of Philadelphia entered the shop on which the light shone.

In this community the public is entering those shops on which the light of advertising is falling.

A WORD TO THE PUBLIC

Be sure of this: those who are using our columns week after week do not give you poorer goods or service, or have higher prices.

Shops which are illumined by advertising court with full confidence your favor.

Local and General

J. C. Drewry carried off a number of prizes at the Calgary fair.

Mr. and Mrs. W. S. Hinkirk spent Dominion Day at Macleod.

Thos. Ed's thoroughbred died from poisoning on Thursday morning.

BORN—On Saturday, June 26th, to Mr. and Mrs. C. Church, a son.

DIED—On Saturday, June 26th, the infant son of Mr. and Mrs. C. Church.

Mrs. Kidd's maternity home, Box 95, Phone 151. Wedding cakes decorated.

The Vancouver council has passed a resolution asking for the exclusion of Hindus.

Owing to many other attractions, the L.O.O.F. picnic did not come off on Dominion Day.

Some fine fish were brought in from the North Fork and from Lundbreck on Dominion Day.

Misses Darrach and Fulton went to Cowley on Thursday, where they will spend a part of their holiday.

Mrs. E. C. Keith, Teacher of Music and Education, 72c per hour each. Eighth Ave. North.

Coleman bachelors defeated the Frank team at the Coleman sports on Dominion Day by a score of 6 to 1.

Fritz Sick was up from Lethbridge on Tuesday, looking after the interests of his hotel at Maple Leaf.

The coroner's inquest into the Hillcrest disaster has been adjourned from the 7th to the 21st next.

J. W. Verge left for Edmonton this morning, where he will attend the summer schools during the holidays.

F. H. Elker, wife and children, and H. A. Elker and wife, of Lethbridge, spent the week at the Cosmopolitan.

The license of the Murphy & Frayer Liquor Company, Ltd., has been recommended, subject to transfer within sixty days.

At a meeting of the court of revision held on Tuesday night, the assessments against which appeals were made were confirmed.

P. H. Dubar, on behalf of the Ferndale-Port Steele Brewing Co., is applying for the transfer of the Blaimore Hotel license.

The marriage of Miss Lu Seia Palmatier, of the "Palmatier Sisters," to Raymond William Pinnot took place at Edmonton on Wednesday.

Don't forget the Home Life Club, meeting on Sunday. Ladies with housecoats, merry-ow hats and the new-fad hat pins will please see that they are shipped to Burnis by Saturday's freight train.

On Tuesday night next the new officers of Blaimore Lodge 68, I.O.O.F., will be installed by District Deputy Green. The officers of Crows' Nest Encampment will be installed on the following night.

A trout weighing 18 pounds was landed from the South Fork river by H. Rynas, this week. Mr. Rynas brought the big fish to town for exhibition. It is believed to be the largest yet taken from Alberta waters.

A Russian, suffering from the after-damp of a big drink, started to make friendly with some young bachelor ladies on Tuesday night, as a result of which he was given to know just what "roping a steer" in this wild and woolly west really meant. He carried away with him at least one distinct impression, which taught him that even ladies are not always to be taken for what they appear.

Pincher Creek's correspondent to the Lethbridge Herald writes that the Chinamen there have learned the commandment: "Six days shall thou do all thy washing and rest on the Sabbath." John misinterpreted the commandment, and made it read "In six days shall thou do all thy washing and the rest on the Sabbath." And now John's working overtime.

Local and General

Mrs. Jones and children went to Calgary on Monday on a short visit.

Miss J. Perkins went to Lethbridge on Wednesday, where she will spend her vacation.

James McLean came up from Lundbreck with a carload of young ladies on Sunday.

The local school closed for the holidays on Tuesday, and most of the teachers hit the trail.

A large number of local folks journeyed to Coleman and Pincher Creek for the Dominion Day sports.

Hundreds of waltons reappeared to the fishing haunts on Dominion Day, and some good catches are reported.

Miss I. Murdoch, of the local teaching staff, went to Pincher Creek on Tuesday, where she will spend the holidays.

J. B. Beddome, of Pincher Creek, who had been conducting examinations at the local school, returned to his home on Monday night.

Coleman, Roy, Sergeant-Major Howe, Adjutant Rutherford, Chaplain Roberts and Lieutenant Sinclair returned from the Calgary military camps on Saturday.

Bob Edwards says: "Praise God from whom all blessings flow, Peace—Him (a) creatures here be low!"

On Sunday afternoon next, at 2:30, a joint memorial service will be held in the Miners' Hall at Hillcrest, under the auspices of the Miners' Union and the church. The Bellevue band, together with the choirs of the Frank and Bellevue Methodist churches, will be in attendance.

The stillness of Tuesday night was very much disturbed by the eager efforts of a certain young lady and gentlemen to locate each other. In the quest each took advantage of every train, aeroplane, automobile and buggy available, and not until daybreak did either retire for rest. Gee, but they have it bad!

Manager Brown, of the Hillcrest Collieries, denies a statement made in the Lethbridge Herald last week, to the effect that his company would be unable to pay compensation and likely to go into liquidation. He states that none of the directors ever authorized such a statement and that the company expects to have no difficulty in meeting the drain the disaster will make on its resources.

Last year Mr. J. Dunning, a well-known New Zealand hunter, sent a very pleasant time in British Columbia shooting and as a return for the good time and many courtesies extended him, he has shipped to Vancouver by the liner Makara four New Zealand red deer. These are consigned to the provincial game warden and, it is said, are to be released on some of the government game reserves. The deer came through in excellent condition and were landed last week.

The sports held at Coleman on Dominion Day attracted a large crowd of people from different parts of The Pass. The programme started about 11 a.m. and was not completed till near sunset. In the afternoon a football match was played between Coleman and Coal Creek teams resulting in a win for Coleman by a score of 10 to 1. In the baseball try between Coleman and Frank teams, the former carried off the honors by defeating the Frank boys to the tune of 6 to 1. Spence Lyon acted as referee, while Albert Olsen performed the duties of base-umpire. In the basketball, the Blaimore ladies "over-reached" the Coleman team. In the pony race Jim Fetter carried off the booty, and nobody objected; but a good race could hardly be expected from horses not accustomed to night racing without a headlight. The proceeds of the day were devoted to the Hillcrest Widows and Orphans Fund.

Local and General

Mrs. E. VanDepple arrived from Winnipeg on Saturday.

S. Bateman, of the Canadian Credit Men's Association, has been in town during the week, looking after the affairs of a local business establishment.

At a meeting of the school board held on Friday night, all the present teaching staff, with exception of Miss Moir, were re-engaged for the balance of the year.

Neil McInnis, formerly in partnership with A. A. Sparks in connection with the Alberta hotel here, arrived from Calgary last week end on a brief visit to the old haunts.

The official inquiry into the Hillcrest mine disaster commenced at Hillcrest yesterday, Judge Carpenter presiding. J. R. Palmer, of Lethbridge, is representing the Miners' union.

The Blaimore Home Life Club will hold an outing at Burnis on Sunday, July 6th. Members and friends will meet the morning east-bound train at Blaimore and inter-mediate stations.

The report of the Blaimore public school for the month of June, and the list of promotions is crowded out of this issue, but will appear next week.

J. C. S. Hudson, of the department of mines, Ottawa, arrived at Hillcrest last week, at the request of Professor R. W. Brock, deputy minister, to look into the causes of the recent disaster.

I have for sale five head of Good Milch Cows, freshly calved. These cows can be seen at my ranch, 300 yards from Cowley station. Prices from \$80 to \$100 each. Blaimore. —C. H. Powlett, Cowley.

A foreigner received severe injuries at the quarries of the Rocky Mountain Cement Co. on Wednesday afternoon, necessitating his hurried removal to the hospital, where he is progressing slowly.

Jack Johnson smiled at Frank Moran over in Paris on Saturday. Frank could not erase that smile at any period during the twenty rounds. So Jack Johnson still is the world's champion pugilist.

Fifty bachelor girls in Toronto declare they will remain single until they discover fifty perfect men. Fifty perfect men is a rather large order, even for Toronto. Now, if it were Blaimore. But what's the use?

But a small audience turned out to see "The Shepherd of The Hills" on Friday night, occasioned, no doubt, by the aftermath of the Hillcrest disaster. The play is an exceptionally fine one and is put on in an able manner by Old Mat and his troupe.

L. Coates, who last year conducted a big sale for B. M. Brisco, passed east on Thursday night last from Nelson to Lethbridge, where he is looking after the business of the North Lethbridge Co-operative Society on behalf of the Canadian Credit Men's Association.

Among the visitors to this paradise during the week were S. C. Bateman, Charles Davis, C. McLean, Lethbridge; A. C. Sheppard, Ottawa; K. D. McDonald, Toronto; George Forgy, Cochrane; D. McCallum, J. Hewitson, Neil McInnis, C. J. Garvin, Calgary; George Mills, Mr. and Mrs. Phillips, Burnis; F. N. and Mrs. Fowler, W. A. and Mrs. Hamilton, T. H. and Mrs. Duncan, Passburg; L. S. Richards, Chicago; Miss and Master Crawford, Cayley;

SURPRISING CURE OF STOMACH TROUBLE

When you have trouble with your stomach or chronic constipation, don't imagine that your case is beyond help just because your doctor fails to give you relief. Mrs. G. Stengle, Plainfield, N. J., writes, "For over a month past I have been troubled with my stomach. Everything I ate upset it terribly. One of Chamberlain's advertising booklets came to me. After reading a few of the letters from people who had been cured by Chamberlain's Tablets, I decided to try them. I have taken three-fourths of a package of them and now eat almost everything that I want." For sale by all dealers.

Blaimore Lodge No. 68, meets in their Hall, 880 Victoria St., every Tuesday at 8 o'clock. Visiting brethren welcome. L. C. GATES, N.G. W. ROBERTS, S.E. CROWS' NEST ENCAMPMENT NO. 9 Meets in the I.O.O.F. Hall every second and fourth Wednesday. R. C. Green, C.T. A. Morency, R.S.

Hillcrest, June 30, 1914.

The Committee of the Women's Organization for the Relief of Widows and Orphans, wish to express their appreciation and thanks to The Ladies Aid Society, and all others who rendered valuable help during the time of the recent mine disaster.

G. R. THOMAS, Secretary.

Centre of Earth not A Molten Mass

Chicago, Ill., June 27.—Ancient and popular beliefs that the core of the earth is a molten mass have been investigated by scientist of the University of Chicago, who have announced to the world that the planet is more rigid than steel, that it could not explode or be destroyed by a fire within itself.

The results of their experiments will be published in the Astrophysical Journal and the Journal of Geology.

The experiments were designed by Professor Albert A. Michelson, head of the department of physics, at the University of Chicago. The investigation of Professor T. C. Chamberlain of the department of geology, and F. R. Moulton of the department of astronomy.

"The experiments," Professor Michelson said, "show that the interior of the earth is not a fiery mass, but resists the tidal forces of the moon about as it would if the earth were made of solid steel. Nevertheless the earth, in spite of its rigidity, behaves as an elastic body; no liquid, of course, but still subject to the same influences as are the oceans which form a part of it."

"That the solid surface of the earth is subject to the same ebb and flow as are the tides of the ocean, although to a lesser extent, is a statement that will astonish the average person, who is prepared to assert with all the assurance of conviction that the earth is an immovable body. The fact that there are tides of about a foot in the surface of the earth has been demonstrated as a scientific fact."

Alexander, a Greek philosopher, some 500 years before the Christian era, advanced the theory that the interior of the earth was a molten viscous mass. The theory was accepted by philo-sophers, scientists and theologians who followed him.

CAUSES OF STOMACH TROUBLE

Sedentary habits, lack of outdoor exercise, insufficient mastication of food, constipation, a torpid liver, worried anxiety, overeating, partaking of food and drink not suited to your age and occupation. Correct your habits, and take Chamberlain's Tablets and you will soon be well again. For sale by all dealers.

When the Empress of Ireland went down the papers were full of the awful story. When a mine blows up and kills hundreds of workers the fact is soon buried. The exploiters travel in first-class pleasure and fear not their own carcases. The exploiters do not go down in the mines, but let the miners be blown up without being hurt. —Editor's Weekly.
